RESUME

CAREER OBJECTIVES AND HIGHLIGHTS

- With over 20 years experience in the film industry, I have built a renowned and highly regarded Film Lighting Company
- Gained immense inspiration working with Dion Beebe, with his innovative approach to lighting and unique camera techniques
- Commercials with Steve Windon such as the Mirinda Soft Drink Commercial further enhanced my ability to work with huge sets, blue screen composites, complex stunts and lighting effects – on the scale of a feature film.
- Toyota Commercial 2003 comprised one of the largest lighting setups. Required to trouble shoot, I provided a unique solution with the development of a 40mx50m Sail, which was rigged in a large stadium by the lighting team under my direction. The lighting involved 20 x 18K's (in addition to other general lighting) and enabled the car to be filmed in free movement beneath.
- My focus on high end Commercial productions over the last few years enabled me to balance commitments of a young family. Now with greater flexibility, I am motivated to further develop my career in the Feature Film arena.
